

Name _____

Period _____

Date _____

5. Would you drink a glass of water? _____

6. If a doctor told you that your brain is almost 70% water, how would you react?

7. Hydrogen hydroxide is another name for water. How does knowing this fact change your answers to questions 1, 3 and 4? Why?

8. The facts the editorial presented were all true, assuming four people drowned in Nowheresville last year. Evaluate the inferences and conclusions you formed now that you have new information. How were your inferences and conclusions biased by the selection of facts and the way in which they were presentation?

9. How did the author use science facts to mislead the readers? Why do you think he did this?
